

SIXTH INTERNATIONAL CONFERENCE ON SPORT AND SOCIETY

## CALL FOR PAPERS

30-31 July 2015  
University of Toronto  
Toronto, Canada

### CONFERENCE FOCUS

Entering its sixth year, the conference will explore a wide-ranging and interdisciplinary examination of sport, including: the history, sociology, and psychology of sport; sports medicine and health; physical and health education; and sports administration and management. The conference is a cross-disciplinary forum which brings together researchers, teachers, and practitioners to discuss the role of sport in society. The resulting conversations weave between the theoretical and the empirical, research and application, market pragmatics and social idealism.

### Special Focus for 2015: Sport in the Americas

#### CALL FOR PAPERS AND CONFERENCE DETAILS

To learn more about the conference, including speakers, session formats, venue, and registration visit the conference website at [www.sportandsociety.com/the-conference](http://www.sportandsociety.com/the-conference).

#### RETURNING MEMBER REGISTRATION RATE

We are pleased to offer a Returning Member Registration Discount to delegates who have attended the Sport and Society Conference in the past. Returning community members will receive a discount off the full conference registration rate. Please visit the registration page for details at [www.sportandsociety.com/the-conference/registration](http://www.sportandsociety.com/the-conference/registration).

## Fifth International Conference on Sport and Society

 COMMON  
GROUND

Dear Delegate,

Welcome to the Fifth International Conference on Sport and Society. The conference and its associated journal were created to explore the connections between sport and its broader context, addressing, amongst other things, the organizational, educational, technological, ethical, and political relationships between sport and society.

We are pleased to hold this year's conference at Universidade Salgado de Oliveira (UNIVERSO) in Niterói, Rio de Janeiro, Brazil just days after the finale of the FIFA World Cup. This year, we are exploring the special focus, "Sport and Development". Under this focus we will consider sports and sporting events as opportunities for global cooperation and development goals across a range of areas. Additionally, we will explore the impact of sports and sporting events on communities, nations, and international relations. The conference is happy to welcome delegates who have travelled to this event from all corners of the earth and represent a breadth of professions and areas of study. We thank you for bringing your particular insight to this important dialogue.

We also hope that you will join us next year in Toronto, Canada, 30-31 July 2015 at the University of Toronto to continue this multifaceted conversation and to contribute your own unique perspective to our annual themes, the 2015 special focus - 'Sport in the Americas', and of course, the Pan American Games.

In addition to organizing the International Conference on Sport and Society, Common Ground publishes papers from the conference at [www.SportandSociety.com/Publications](http://www.SportandSociety.com/Publications), and we do encourage all conference participants to submit a paper based on their conference presentation for peer review and possible publication in the journal. We also publish books at [www.SportandSociety.com](http://www.SportandSociety.com) in both print and electronic formats.

Thank you to all who have put such a phenomenal amount of work into preparing for the Sport and Society Conference. I am particularly thankful for the efforts of Professor Keith Gilbert of the University of East London, and both Professor Roberto Ferreira dos Santos and Professor Renata de sa Costa of Universidade Salgado de Oliveira (UNIVERSO). I also want to thank my Common Ground colleagues for all of their work on the conference, especially Rachael Arcario, Ian Nelk, and Kim Kendall

We wish you all the best for this conference, and hope it will provide you every opportunity for dialogue with colleagues from around the corner and across the world.

Yours Sincerely,

Dr. Phillip Kalantzis-Cope  
Director, Common Ground Publishing

## A Model Talent Identification in Soccer: Identifying Young Talented Soccer Athletes

By: [Dr. Nining Kusnanik](#)

The purpose of this research was to get instruments of anthropometrical measurement, physiological and biomotorical testing, equation model and software that can be used to identify young talented athlete in soccer. Type of this research was quantitative with developmental research approached. This research was conducted into 3 stages: stage 1 composed the Selected Instrument Test Design (SITD), stage 2 tried out of SITD, stage 3 implemented of the Selected Instrument Test (SIT). Population of this research were students of soccer in the area of Surabaya, Gresik and Sidoarjo Indonesia aged 11-13 years old. Samples were taken using purposive sampling technique with total numbers 112 students for stage 2, and 238 students for stage 3 with total samples 350 students. Data was taken from the result of anthropometrical measurement, physiological and biomotorical testing. Data was analyzed using Statistical Package for Social Sciences (SPSS). Results of this research showed that for stage 1, it was selected 16 items SITD, 13 items pre-SIT, and 6 items post-SIT. The result of equation model was  $D = -9,809 + (0,013 \text{ Haight}) + (-0,016 \text{ Body Mass}) + (0,004 \text{ Flexibility}) + (-0,100 \text{ Shuttle Run}) + (-0,178 \text{ Sprint 40 meter}) + (2,052 \text{ Multistage Fitness Test})$ . Software was called Talent Identification for Soccer (TID Soccer). In conclusion, instruments for anthropometrical measurement were height and body mass; physiological testing were sprint 40m, shuttle run 5m, and multistage fitness test; biomotorical testing were flexibility which were completed with equation model and software for identifying young talented soccer athletes.

To add a paper, [Login](#).

**Keywords:** Anthropometrical, Physiological, Biomotorical, Talented, Soccer

**Stream:** Sport and Development

**Presentation Type:** 15 minute Paper Presentation in a Themed Session in English

**Paper:** A paper has not yet been submitted.
