To: editor@ijmmu.com

Dear Editor-in-Chief,

My name is **Mochamad Ridwan** as the corresponding author for this article

We would like to submit the enclosed manuscript entitled "**Students Depression, Anxiety, and Stress Level: A Case Study in the Sport Education Department**", which we wish to be considered for publication in "**International Journal of Multicultural and Multireligious Understanding**".

No conflict of interest exists in the submission of this manuscript, and manuscript is approved by all authors for publication. We would like to declare on behalf of my co-authors that the work described was original research that has not been published previously, and not under consideration for publication elsewhere, in whole or in part. All the authors listed have approved the manuscript that is enclosed.

The purpose of this paper is to find out the level of depression, anxiety and stress of students judging by gender and age. The method used is a survey with a quantitative approach. The subjects in the study were 169 students. Data retrieval is done by spreading depression, anxiety, stress scale 42 (DASS 42) questionnaires through online applications. The results in this study are that at the age of 20, many students have depression, anxiety and stress in the normal category and there is also a very heavy category. There was no significant difference between levels of depression, anxiety and stress with age as well as gender. Male and female experience very heavy categories on depression and anxiety. I hope this paper is suitable for "**International Journal of Multicultural and Multireligious Understanding**".

Thank You very much

We are looking forward to your kindly response soon.
