Dear Editor of **Rasayan** Journal of Chemistry (RJC)

Herewith, I am sending our manuscript entitled “**The Utilization Of Black Rice Yeast And Its Are Exposed To Type 2 Diabetes Mellitus**” to your journal (**Rasayan** Journal of Chemistry)

In this work, we aimed at utilizing yeast-black rice (yeast-BR) and its physiological effects in mice induced by high fat and fructose diet then classified and treated with different treatment. Several insulin, and DM in glucose metabolism. Blood glucose tolerance in DM 2 patients can be improved as anti-DM 2 produced from this computational simulation needs to be tested empirically by feeding the ingredients containing chromium, namely yeast-black rice (Yeast-BR). The results show glucose levels and the absorbed percentage of chromium in black rice yeast
