Review Comments (Synthesis of Nanoherbs from Ethanolic Extract of Indonesian Fern *Selaginella plio* and Antibacterial Activity Assay)

### Editorial comments to authors

Include date (Month and Year) of plant sample collection and the voucher number for the plant material.

Materials and Methods: Include section for statistical analysis.

For reference section: Include Volume and/or page numbers for no; 1, 2, 4, 8, 23.

All comments/corrections made by reviewers should be completely addressed, point by point, and make appropriate changes in the manuscript, or provide a suitable rebuttal to any specific request for change that has not been made.

All corrections/changes made in the manuscript should be highlighted in yellow colour when submitting the manuscript in the revised form on or before 15th January 2022

The authors should carefully revise and correct the manuscript taking into consideration the comments of all the reviewers. 50% of the references cited should be between 2016-2020. The revised and corrected manuscript should be subjected to plagiarism checker (17% allowed in TJNPR) and English language editing. Evidence of the checks should be attached when submitting the revised/corrected manuscript.

During submission of the revised manuscript include another file labelled "Responses to reviewers' comments" (a matrix) clearly showing your responses to each of the issues raised by the reviewers; mention the section, page and paragraph/lines where and how the changes/corrections have been made.

Strictly adhere to the author guidelines. Make sure that all the facts and information provided in the manuscript are correct. Check grammar, spelling, spacing, other information and facts including scientific names, formulae, symbols, equations, etc.

Ensure that all the references are correctly cited in the text and list. Verify all the references from their original sources. Confirm correctness of the citation info such as authors' names (surnames, initials, spelling, arrangements, etc), year, title, journal, volume, pages, punctuation, etc. The numbers and units must be presented according to the journal style. Use clearly distinguishable patterns for the illustrations/figures (e.g., graphs and charts) such that they should be legible even for black and white printing or when reduced in size.

Proofread the whole document after effecting all the corrections. The revised version should be approved by all the co-authors before submitting it.

Best regards

Dear Chief Editor of TJNRP, Professor Abiodun Falodun, PhD

May I send my revised article with the title "Synthesis of Nanoherbal from Ethanol Extract of Indonesian Fern *Selaginella plana* and Antibacterial Activity Assay". I also send the results of the plagiarism check using the Turnitin software. I have highlighted the revised part of the article in yellow, including the latest reference (2016-2020) as a substitute for the previous reference.

I really appreciate your help and thank you very much.

The Editorial Team of the Tropical Journal of Natural Product Research kindly request you to review the enclosed article. Please complete the form and return to the Editor-in-Chief, [editor.tjnpr@gmail.com](mailto:editor.tjnpr@gmail.com); [editor.tjnpr@uniben.edu](mailto:editor.tjnpr@uniben.edu)

#### A. MANUSCRIPT

Journal	Tropical Journal of Natural Product Research
Manuscript Number	TJNPR JY103AR
Type of paper	Research paper
Title of paper	Synthesis of Nanoherbs from Ethanolic Extract of Indonesian Fern <i>Selaginella plana</i> and Antibacterial Activity Assay
Name of Authors	I dont know

#### B. REVIEWER'S SPECIFIC COMMENTS PER SECTION OF MANUSCRIPT

Abstract	What is Implication of the nanoherbs in the research?
Introduction	Good
Methodology	Good
Results	Good
Discussion	Good
Conclusion	Good
References	Good
Figures, Tables	Good

#### C. REVIEWER'S GENERAL COMMENTS AND REMARKS

Comments may be continued onto another sheet if necessary.

In principle, the research article is good, but it would be better if

1. It is better to write the implications of this research
2. It is better to upload photos of the results of the antibacterial activity test
3. It is better to apload SEM or TEM data of the nanoherb
