Mr Dany Iman Santoso:

We have reached a decision regarding your submission to International Journal on Advanced Science, Engineering and Information Technology, "Effect of egg freshness on baking temperature, moisture content and water activity of pastry process".

Our decision is to: Revision Required

Please update your abstract into 220-250 words and your reference 70% in (2017-2020) from journal indexed by Scopus. Citation and Reference in Paper must using Mendeley with IEEE Style.

Please submit your revision in 10 days. More than 10 days of paper will be rejected from the system. Re-upload your revision into journal system NOT via email.

Our decision is to: Revision Required

Please update your abstract into 220-250 words and your reference 70% in (2017-2021) from journal indexed by Scopus. Citation and Reference in Paper must using Mendeley with IEEE Style.

Please submit your revision (Template IJASEIT 2021) in 10 days. More than 10 days of paper will be rejected from the system. Re-upload your revision into journal system NOT via email.

Editor

Reviewer A:

This paper already has novelty, but the contribution is not well illustrated. Improve sentence writing and title selection so that this manuscript has a good contribution. Improve introduction writing by using effective sentences. Writing introductions and paragraphs with efficient and effective sentences. The conclusion is still not effective and efficient, so in one paragraph it consists of 4-5 sentences. Suggest what gap analysis is based on accurate data. Improve references with primary references that match your research topic. Give a clear and strong purpose to the final sentence of the last paragraph Introduction.

In the method section, there are still deficiencies in the clear and systematic explanation of the research stages. The improvement that must be done is to add a flow chart to the method. Strengthen your method by using systematic stages, starting from the initial stages of research (preparation of samples and populations or preparation of materials needed at the beginning of the research), implementation stages (in the form of research procedures with systematic stages and clear and accurate stages), and stages. final or evaluation (in the form of data collection techniques, data interpretation techniques, and data analysis based on clear indicators and instruments). Explain whether this method was done well or not, clarify and improve it again with the use of efficient and effective sentences.

In writing, there are still errors in making tables that are not in accordance with the latest journal template in 2021. Fix it by referring to the template. Also fix images with proper proportionality, legible size and good image quality (300 dpi). This improvement also includes how you display figures and tables properly and proportionally, for example only 3-4 images and 2-3 tables are displayed.

The writing of the discussion is still not effective and efficient. The discussion is still not supported by relevant data. Pay attention to the symptoms and phenomena that you find from research, then present supporting and contradictory arguments as an interesting discussion and provide clarity on the events and findings that you get. Present an argument with the most recent references (from journals published in the last 5 years). Improve the discussion with the conclusions that you make yourself at the end, as a comment from you on the research results that you get.

Writing conclusions has not been effective and efficient. Include key data or indicators of your research results. Use effective and efficient sentences in writing the conclusions that you get from this research.

Present the core data that you produce, and present your interpretation with effective and efficient sentences in just 1 or 2 paragraphs. Don't make conclusions in the form of bullet points or numbers that you come up with. Fix the conclusion properly as noted above.

Reviewer A:

In particular, you need to improve in writing, by considering how to present arguments in good, effective and efficient sentences. In writing, one paragraph should be written in 5-6 sentences, and consists of 35-45 words, so that the paragraph is not long and becomes effective. Keep paragraphs shorter and explain the phenomenon and interpret the results in a good, concise and clear manner.

You need to add to the introduction about your research update with adequate reference data from recent journal references so that the novelty and research update research that you are doing is illustrated. Adequate references from primary references that are directly related to your research, so that the development of this research is well and clearly illustrated. What you write, is not sufficient for a contribution and input in relevant research, and it can be seen from the updated research that you use to support and investigate the relevant research you submit.

This paper already has novelty, but the contribution is not well illustrated. Improve sentence writing and title selection so that this manuscript has a good contribution. Improve introduction writing by using effective sentences. Writing introductions and paragraphs with efficient and effective sentences. The conclusion is still not effective and efficient, so in one paragraph it consists of 4-5 sentences. Suggest what gap analysis is based on accurate data. Improve references with primary references that match your research topic. Give a clear and strong purpose to the final sentence of the last paragraph Introduction.

The writing of the discussion is still not effective and efficient. The discussion is still not supported by relevant data. Pay attention to the symptoms and phenomena that you find from research, then present supporting and contradictory arguments as an interesting discussion and provide clarity on the events and findings that you get. Present an argument with the most recent references (from journals published in the last 5 years). Improve the discussion with the conclusions that you make yourself at the end, as a comment from you on the research results that you get.

RE: JOURNAL PROCESSING FEE

We are happy to inform you that since Volume 5 (2015) *International Journal on Advanced Science, Engineering, Information and Technology* (IJASEIT) has been indexed in **Scopus**. The Scientific committees of IJASEIT agree that your manuscript is **accepted** to be published in IJASEIT.

Title	Choux pastry made from egg groups based on the hen age and shelf life of the eggs
Authors	Dany Iman Santoso

Journal Processing Fee: USD \$ 255 + Proofread Paper USD \$ 125, Total USD \$ 380. Indonesian authors: 5.500.000 IDR per article.

Please complete the payment of journal processing fee through wire transfer to:

Account Name : Rahmat Hidayat
 BANK Name : Bank Negara Indonesia (BNI)
 Account No : 00597 62722

Please reply with copy of Bank transfer to this email or via WhatApps to +62821 71 822448

Best Regards

Dear Mr. Rahmat,

The no. 3 of IJASEIT has been published. It's just a reminder. Will our article be published in no.4?
We need it as proof of performance and promotion at university soon.

Regards,
Dany
