I am forward to hearing the response as soon as possible.  
Thank you.

Best Regards,  
Prof. Tukiran

1. Manuscript for ...

**RASĀYAN J. Chem.** -rasayanjournal@gmail.com  
to me

Apr 16, 2020, 7:54 PM

Dear Author,  
Greetings from RASĀYAN Journal of Chemistry. [For authentic Source Details, please visit <https://www.scopus.com/sourceid/19400157518?origin=browse>].

Thanks for sending your manuscript for possible Review and subsequent publication in RASĀYAN Journal of Chemistry.

Your manuscript is under **Preliminary Review**. If we found it suitable for our journal, you'll be assigned the **Manuscript Number**. Then after we'll send it to the reviewers further.

rasayanjournal@gmail.com

Apr 17, 2020, 7:38 AM

Dear  
**Prof. Sanjay K. Sharma, FRSC**  
Editor, RASĀYAN Journal of Chemistry

Thank you very much for quick response and good cooperation

## 4. Assigning our manuscript Number and Notifying Revision-1

The screenshot shows a Gmail interface with an email from RASAYAN J. Chem. The email content includes:

Sincerely yours,  
Prof. Tukan  
Department of Chemistry  
Faculty of Mathematics and Natural Sciences  
Universitas Negeri Surabaya

**Assigning Manuscript Number and Revision-1**

**Your Manuscript No. is: RJC- 5927/2020. Please use this number always in any of your future correspondence with us.**

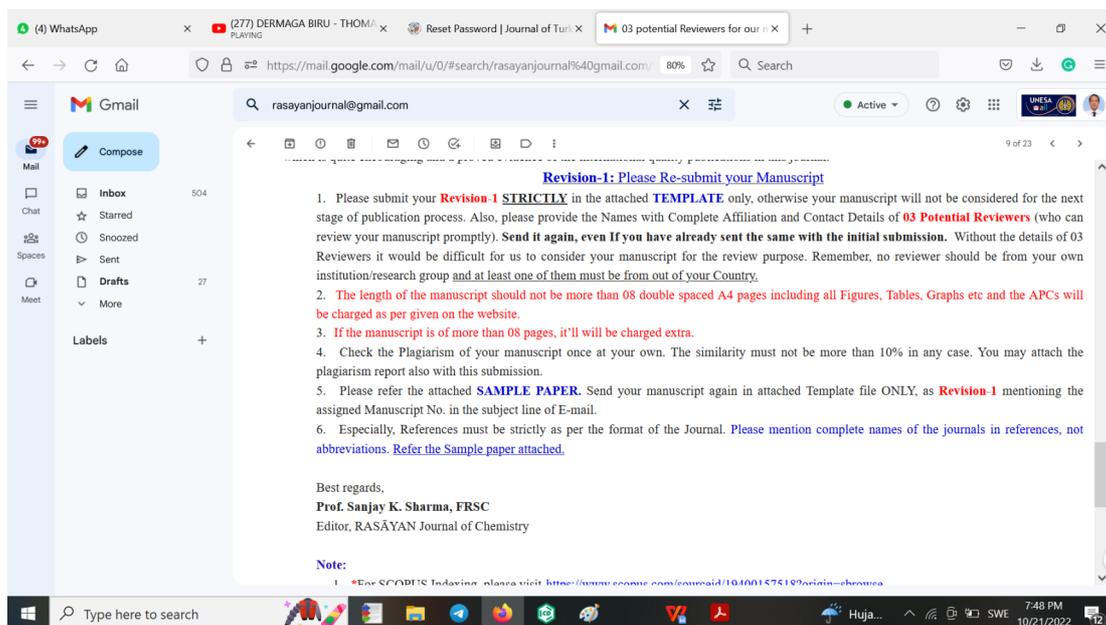

Dear Author,  
Thanks for submitting your valuable manuscript for the review and subsequent publication in RASAYAN Journal of Chemistry, which is A SCOPUS (Elsevier) indexed [Since 2008\* and the current CiteScore 2019 is 1.20] international Research Journal of Chemical Sciences. Its also approved by UGC (India) and included in its CARE list.

We are very happy to share with you that SJR powered by SCOPUS (Elsevier) announced the **Journal Ranking<sup>#</sup>** of Indian Journals abstracted in SCOPUS (Elsevier) and its matter of proud for us that RASAYAN J. Chem. is on **2<sup>nd</sup> rank** in this list and having significantly high **H-index value = 18**; which is quite encouraging and a proved evidence of the international quality publications in this journal.

**Revision-1: Please Re-submit your Manuscript**

1. Please submit your **Revision-1 STRICTLY** in the attached **TEMPLATE** only, otherwise your manuscript will not be considered for the next

## 5. Assigning our manuscript Number and Notifying Revision-1 (continued)

The screenshot shows the continuation of the email with the following text:

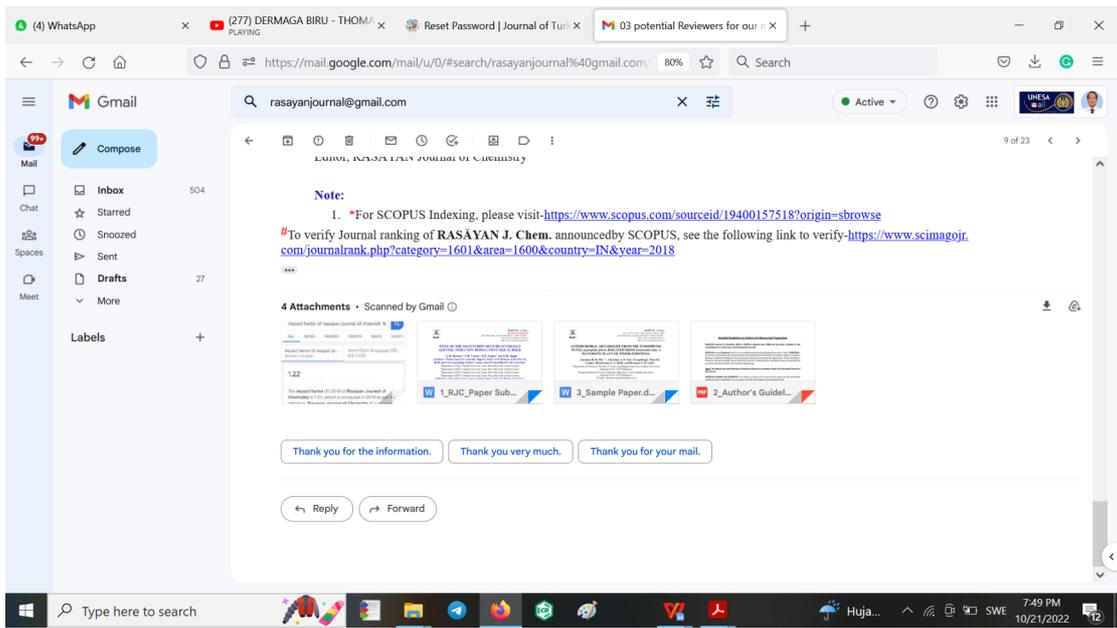

**Revision-1: Please Re-submit your Manuscript**

1. Please submit your **Revision-1 STRICTLY** in the attached **TEMPLATE** only, otherwise your manuscript will not be considered for the next stage of publication process. Also, please provide the Names with Complete Affiliation and Contact Details of **03 Potential Reviewers** (who can review your manuscript promptly). **Send it again, even if you have already sent the same with the initial submission.** Without the details of 03 Reviewers it would be difficult for us to consider your manuscript for the review purpose. Remember, no reviewer should be from your own institution/research group **and at least one of them must be from out of your Country.**
2. **The length of the manuscript should not be more than 08 double spaced A4 pages including all Figures, Tables, Graphs etc and the APCs will be charged as per given on the website.**
3. **If the manuscript is of more than 08 pages, it'll will be charged extra.**
4. Check the Plagiarism of your manuscript once at your own. The similarity must not be more than 10% in any case. You may attach the plagiarism report also with this submission.
5. Please refer the attached **SAMPLE PAPER**. Send your manuscript again in attached Template file ONLY, as **Revision-1** mentioning the assigned Manuscript No. in the subject line of E-mail.
6. Especially, References must be strictly as per the format of the Journal. **Please mention complete names of the journals in references, not abbreviations. Refer the Sample paper attached.**

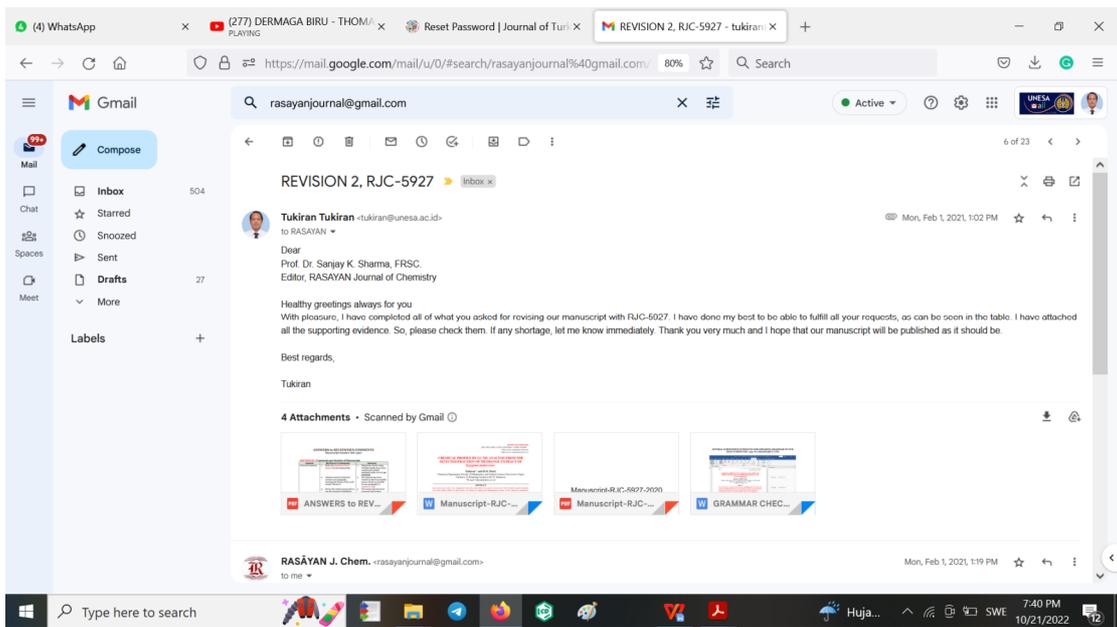

Best regards,  
**Prof. Sanjay K. Sharma, FRSC**  
Editor, RASAYAN Journal of Chemistry

**Note:**

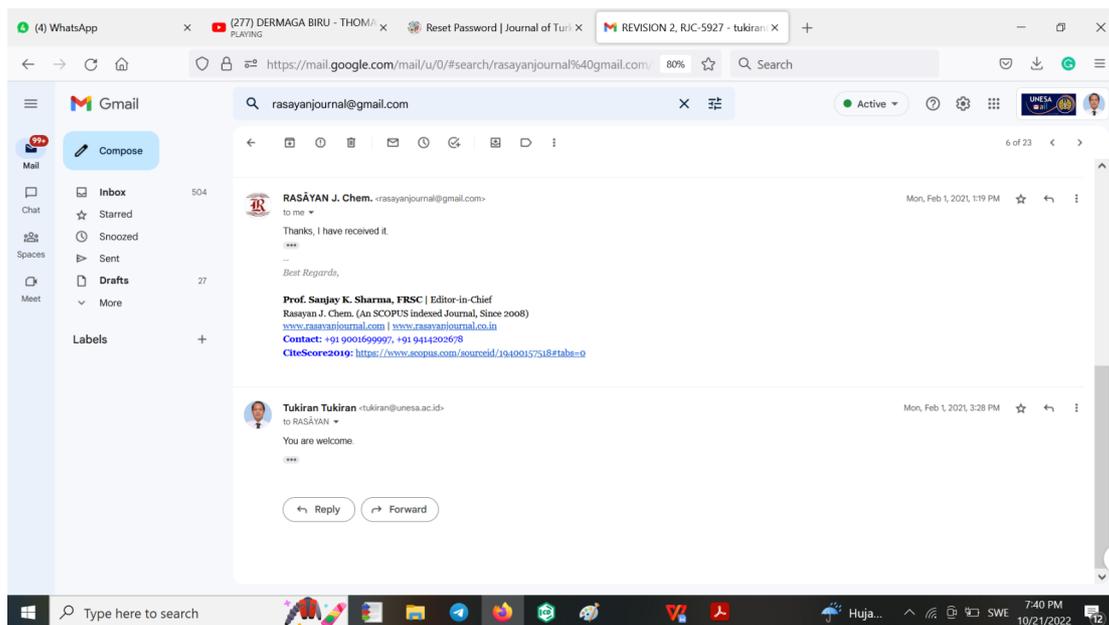

1. For SCOPUS Indexing please visit <https://www.scopus.com/consent/110400157519?origin=checkboxes>

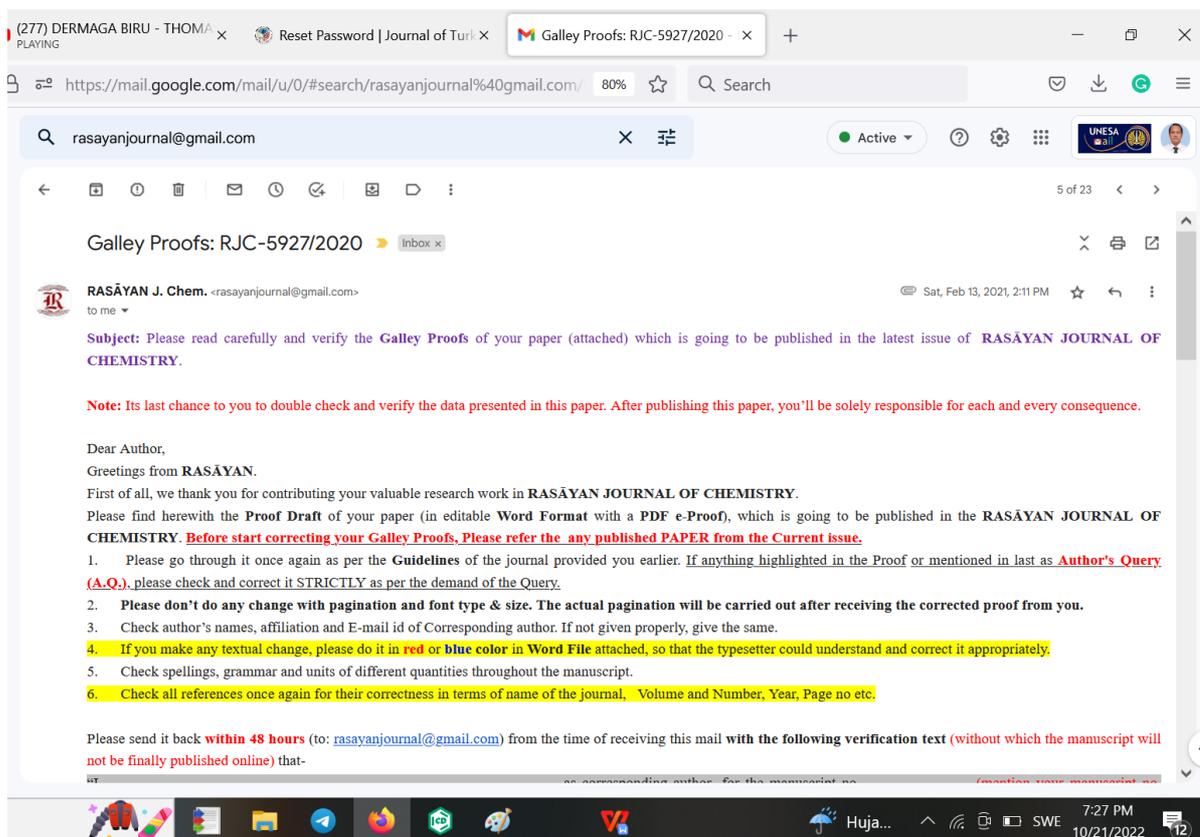

## 6. Assigning our manuscript Number and Notificating Revision-1 (continued)

## 7. Respond EiC terhadap Revised manuscript-1

## 8. Giving Galley proofs read of our manuscript

## 9. Giving Galley proofs read of our manuscript (continued-1)

The screenshot shows an email interface with the following content:

..... as corresponding author for the manuscript no.....(mention your manuscript no. here correctly) on behalf of myself and all my co-authors confirm that we have gone through the **Proof Draft** of my manuscript; which is going to be published in the coming issue of **RASAYAN JOURNAL OF CHEMISTRY**. I take complete responsibility about the correctness of matter and content presented in this paper."

Since **RASAYAN J. Chem. (SCOPUS H Index= 20)** is a rapidly growing International journal, you are requested to suggest the journal to your colleagues and friends. Thanks for your cooperation and support. Looking forward.

Best Regards,

**ABSTRACT**  
In our previous study, two compounds from the stem bark of *Syzygium malaccense* were isolated, namely palmitic acid and methyl oleate. In this article, we intend to display the chemical components' identification results in selected fractions of methanol extract of the plant. Through LC-MS analysis, twenty chemical components of the fraction were identified. Structurally, they can be grouped into phenolic acid derivatives such as gallic acid and casuarinin and flavonoid derivatives, including chalcones, flavanols or catechins, flavanones, and flavonols.  
**Keywords:** Flavonoid Derivatives, LC-MS, Myrtaceae, Phenolic Acid Derivatives, *Syzygium malaccense*  
RASAYAN J. Chem., Vol. 14, No.1, 2021

**INTRODUCTION**  
In Indonesia, *Syzygium malaccense* (L.) Merr. & Perry (Family: Myrtaceae) was known as jambu bol.<sup>1</sup> The fruit of this plant is generally eaten fresh or used as one of the ingredients of salad (Indonesian name: rujak). They are widely used in traditional medicines for treatments such as mouth infections, throat infections, etc.<sup>2,3</sup> When *S. malaccense* leaves are pounded, they can be used as antiseptic, tissue inflammation, dysentery, and other ailments. Besides that, these plants have
