Ass. Wr. Wb.  
Saya mencoba kirim manuskrip secara OJS (ada lima tahapan). Tapi, giliran tahap kedua saat upload file manuscript (dalam bentuk word/docs). kok lama uploadingnya. Bahkan akhirnya gagal. Saya refresh dan ulang kembali, ternyata sama kasusnya.  
Mohon ijin saya kirim via email nggih dan saya forward juga ke Pak Iqmal. Pangamputen. Matur nuwn.

Dear Tukiran - Tukiran,

We have reached a decision regarding your submission to Indonesian Journal of Chemistry, "IDENTIFICATION OF THE CHEMICAL CONTITUENTS OF THE SELECTED FRACTION OF THE DICHLOROMETHANE EXTRACT OF SYZGIUM SAMARANGENSE STEM BARK USING LC-ESI-MS AND EVALUATION ITS POTENTIAL AS ANTIFUNGAL AGENT".

Our decision is: Revisions Required

Comments of the reviewers can be seen in the bottom part of this email.

The revised paper has to be completed with the responses for the reviewer's comments, point by point, in table form at the beginning of the page of the revised paper. It is also required to highlight the revised parts with a different color of letters.

The revised paper has to be resubmitted in the system within three weeks.

Thank you for your intending to contribute to the journal and for giving us to read your work.

This paper contains a considerably important finding with in-depth analysis supported by good data. However, some parts the paper are written in poor English with low variation of vocabularies and numerous grammar errors. Shorter and more concise title is suggested. Introduction should address very important issues to solve (for example disease epidemiology, mortality rate, etc. supported by public data), to give impression that the research was

Additional Comment::  
Dear Authors

In my opinion, the topic is quite interesting to certain readers in Indonesian Journal of Chemistry. There is substantial work done on the topic. However, following are few comments which should be answered before a final recommendation.

1. English grammar needs to be checked and revise in the entirely manuscript
2. What is your novelty? Do you find a new chemical structure or first found in your sample extract?
3. You should rewrite the Introduction because some sentences and paragraph did not connect with the following sentences/paragraph, is like standalone phrase.
4. In the Introduction section, paragraph 4, you wrote *S. polyanthum*, so which one is correct for you sample?
5. Please support your predicted chemical structure with mass fragmentation to make it more comprehensive prediction not only based on m/z
6. Please rewrite your results and discussion, is like literature review
7. Please rewrite the conclusions because only write result, there is no relevance with your aims and title

Dear Tukiran - Tukiran,

We have reached a decision regarding your submission to the Indonesian Journal of Chemistry, "IDENTIFICATION OF THE CHEMICAL CONSTITUENTS OF THE SELECTED FRACTION OF THE DICHLOROMETHANE EXTRACT OF SYZYGIVM SAMARANGENSE STEM BARK USING LC-ESI-MS AND EVALUATION ITS POTENTIAL AS ANTIFUNGAL AGENT".

Our decision is: Revisions Required

Comments of the reviewers are as follows:

1. Most of author responses are accepted
2. Some parts of the manuscript, however, still needs to be revised:
  - Figure1 is not clear and not readable.
  - Consider the significant figure of the percentage in Table 1, 5 digits after the decimal point is too many.
  - Reduce the number of old references to up to a maximum of 20%. Old references mean articles published more than 10 years.

The revised paper has to be completed with the responses for the reviewer's comments, point by point, in table form at the beginning of the page of the revised paper. It is also required to highlight the revised parts with a
