Cc: Hanik Badriyah Hidayati &lt;hanikhidayati@yahoo.com&gt;, Wiyli Yustanti &lt;wiyliyustanti@unesa.ac.id&gt;, Yuni Yamasari &lt;yuniyamasari@unesa.ac.id&gt;, Lusia Rakhmawati &lt;lusrakhrmawati@unesa.ac.id&gt;, HPA HPA tjahyaningtjas &lt;hapsaripeni@unesa.ac.id&gt;, Yeni Anistyasari &lt;yenian@unesa.ac.id&gt;

Naim Rochmawati:

Congratulations, your full paper with paper ID: #430, entitled:" Covid Symptom Severity Using Decision Tree " has been accepted and will be considered for presentation on ICVEE conference. The 3rd International Conference on Vocational Education and Electrical Engineering (ICVEE) 2020 will be held on 2020-10-03 at in the virtual event.

We will submit your full article to IEEE X-plore after completing the revision process (the better in the word format to make it easy for editing). The reviewers make some inputs and comments for your article (see below). Please revise your article (as the timeline September 7,2020) based on reviewer inputs.

You also have to convert your file to the pdf express, send the copyright, make registration to the conference and attend the presentation on ICVEE conference.

To convert your article to IEEE PDF eXpress, you can visit the website of IEEE PDF eXpress at:

<https://www.pdf-express.org/>

First time users should do the following:

Select the New Users

Enter the following:50212X for the conference ID

Please complete the payment fee of your article according to the timeline, status of the first author and also based on where your article will be published.

Please make sure that your next full paper submission has a similarity score of less than 20%.

If you have any question don't hesitate to contact: [icvee@unesa.ac.id](mailto:icvee@unesa.ac.id)

Thank you very much and we looking forward to your participation in this event.

ICVEE Unesa  
Unesa  
[icvee@unesa.ac.id](mailto:icvee@unesa.ac.id)

Reviewer A:

The article was relevant to the ICVEE topic.:

Very relevant (4)

The ability to communicate to the reader (grammar and communication skills):

Good in grammar and communication skill (3)

The originality and scientific contributions to the field.:

Adequate originality and scientific shown (3)

Literature review, theory, methodology and discussion/analysis for the

purposed study given clearly:

Need improvement of presentation (2)

The paper includes table, graph, figures, and equation with good resolution and it has been explained with clarity in the article:

Marginal Fair in resolution but some figures are not cited (3)

The conclusions consistent with the evidence and the references provides sufficient:

Marginal Fair (3)

Comments to the Author:

Fig 3 and Fig 4 have a stack of writing. Please improve it.

" The three pictures above show that the time taken by Hoeffding Tree in processing data faster than the J48. But when the 20-fold cross validation, it takes much longer than j48. Average of Kappa Statistic J48 is bigger than Hoeffding tree. Likewise with Mean Absolute Error where the Hoeffding tree is bigger than J48". Why it can be happened?

All of the table should be cited in Paragraph

Reviewer B:

The article was relevant to the ICVEE topic.:

Very relevant (4)

The ability to communicate to the reader (grammar and communication skills):

Satisfactory in grammar and communication skill (4)

The originality and scientific contributions to the field.:

Adequate originality and scientific shown (3)

Literature review, theory, methodology and discussion/analysis for the purposed study given clearly:

Good presentation (4)

The paper includes table, graph, figures, and equation with good resolution and it has been explained with clarity in the article:

Satisfied in resolution but some figures are not cited (4)

The conclusions consistent with the evidence and the references provides sufficient:

Good (4)

Comments to the Author:

---

Reviewer C:

The article was relevant to the ICVEE topic.:

Fair relevant (3)

The ability to communicate to the reader (grammar and communication skills):

Good in grammar and communication skill (3)

The originality and scientific contributions to the field.:

Some originality and scientific shown (4)

Literature review, theory, methodology and discussion/analysis for the

purposed study given clearly:

Marginal Fair of presentation (3)

The paper includes table, graph, figures, and equation with good resolution and it has been explained with clarity in the article:

Marginal Fair in resolution but some figures are not cited (3)

The conclusions consistent with the evidence and the references provides sufficient:

Marginal Fair (3)

Comments to the Author:

Your research discusses about classification the Covid symptoms using a Decision Tree algorithm, how about the title?

How about the successful classification of your method? add some quantitative result in the abstract to know your system performance.

" Cross validation dalam penelitian ini akan dilakukan 3 kali untuk masing-masing algoritma. 3 cross validation tersebut adalah 2 fold, 10 fold dan 20 fold. Pemilihan fold dilakukan acak untuk mengetahui perbedaan hasil apakah nantinya hasilnya signifikan ataukah tidak"

Please check carefully there are still many Bahasa Indonesia. You should improve it.

How do you get Accuracy, precision, recall, f-measure, MCC, ROC Area, PRC Area in table 1. Explain it in detail. Does it have dimension?

How do you get the number that shown in Fig 2 and 3. The word in bellow age is stack up. Please improve it.

" The three pictures above show that the time taken by Hoeffding Tree in processing data faster than the J48. But when the 20-fold cross validation, it takes much longer than j48. Average of Kappa Statistic J48 is bigger than Hoeffding tree." You should explain, why the Hoeffding faster than J45? and Why with 20 fold, Hoeffding longer than J45. All of result should be explain in detail

2020 The 3<sup>rd</sup> International Conference on  
Vocational Education and Electrical Engineering (ICVEE)  
<http://icvee.conference.unesa.ac.id>

**Letter of Acceptance for Abstract**

Dear Authors: Naim Rochmawati, Hanik Badriyah Hidayati, Hanik Badriyah Hidayati, Hanik Badriyah Hidayati, Wiyli Yustanti, Wiyli Yustanti, Yuni Yamasari, Wiyli Yustanti, Lusia Rakhmawati, Yuni Yamasari, HPA HPA tjahyaningtijas, Yuni Yamasari, Yeni Anistyasari, Lusia Rakhmawati, Lusia Rakhmawati, HPA HPA tjahyaningtijas, HPA HPA tjahyaningtijas, Yeni Anistyasari, Yeni Anistyasari

We are pleased to inform you that your abstract (Abstract ID #430), entitled:

Covid Symptom Severity Using Decision Tree

has been reviewed and accepted for continuing to be submitted to full paper. 2020 the third International Conference on Vocational Education and Electrical Engineering (ICVEE) will be held on 3 to 4 October 2020 in the virtual event.

Please submit your full paper before the deadlines, visit our website for more information.

Thank you,

Best regards,

**Prof. Dr. Bambang Suprianto, M.T**  
Conference Chair

Dear ICVEE participant

Congratulations, your abstract has been accepted for continuing to be submitted to full paper. The Letter of Acceptance of the abstract could be seen in the attachment file.

The full article should be submitted before July 26, 2020 for the batch 1 and 2 and August 7 2020 for the batch 3. Please follow the guidelines IEEE template in the attachment file when submitting your full article and make sure you have checked your paper thoroughly. A brief paper must not exceed 6 pages of formatted text in the IEEE two-column style.

Please pay more attention to the grammar, communication/presentation skills and scientific contributions to the field that have been explored clearly. The paper also includes tables, graphs, figures, and equations with good resolution and it has been explained with clarity in the article. Please make sure that your full paper submission has a similarity score of less than 20%.

The full paper should include the introduction, method, results & discussion, and also the conclusion. The Introduction states the overview of the current state in the subject area and what it will contribute to the field. The methodology includes the methods used to get the purpose. Results and discussions show the results that you achieved, preferable in the graph, figure and table and offer an interpretation of those results. And the conclusion summarizes your key findings and further implications for the field.

The full paper should be uploaded via <http://icvee.conference.unesa.ac.id/registration/> according to your abstract ID submission. To upload your full paper: you just clicked the title of your abstract submission and then submitted the full article. After you have uploaded your full article, you must click finish submission and the status of your ID article is paper in review

If you have already uploaded your full papers via <http://icvee.conference.unesa.ac.id/registration/> just ignore this email.

if you have any questions Please don't hesitate to contact: [icvee@unesa.ac.id](mailto:icvee@unesa.ac.id)

We wish you safety and good health during this strange time of the COVID-19 outbreak.

Thank you very much for your participation

Best regards

ICVEE committeeA
