Subject: Article Submission

To: <info@wiete.com.au>

Dear WTE&TE Committee,

I am Agus Wiyono from State University of Surabaya. On behalf of all authors, I would like to submit an article entitled " Location quotient analysis based on priority sector to optimize school development: vocational school in Indonesian context" for consideration by the World Transactions on Engineering and Technology Education (WTE&TE). I confirm that this work is original and has not been published elsewhere, nor is currently under consideration for publication elsewhere.

The purpose of this research is to assess the compatibility of vocational schools with regional priority industries. The research procedures are (1) identifying the leading sectors using the Location Quotient, (2) assessing the compatibility of vocational school development with the priority sector, and (3) determining the elements that contribute to the suitability. The results indicate a disparity between the growth of vocational school and priority sector industries. Factors affecting the discrepancy are community interest, existing skills programs, availability of facilities and infrastructure, practical activities in schools, and collaboration with industries.

I look forward to your response. Thank you.

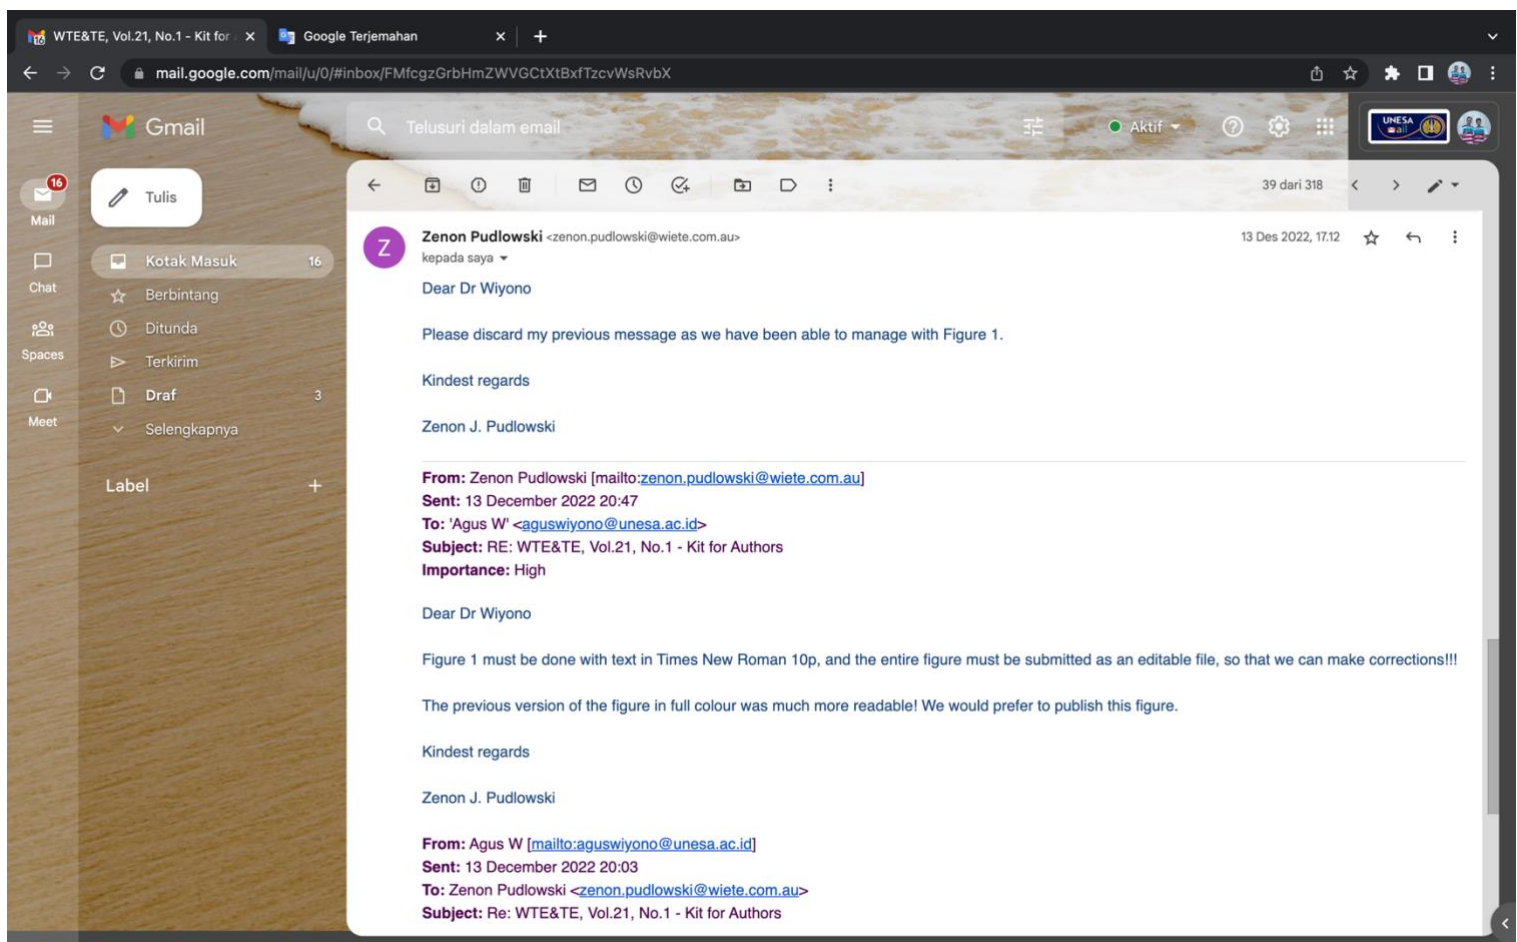

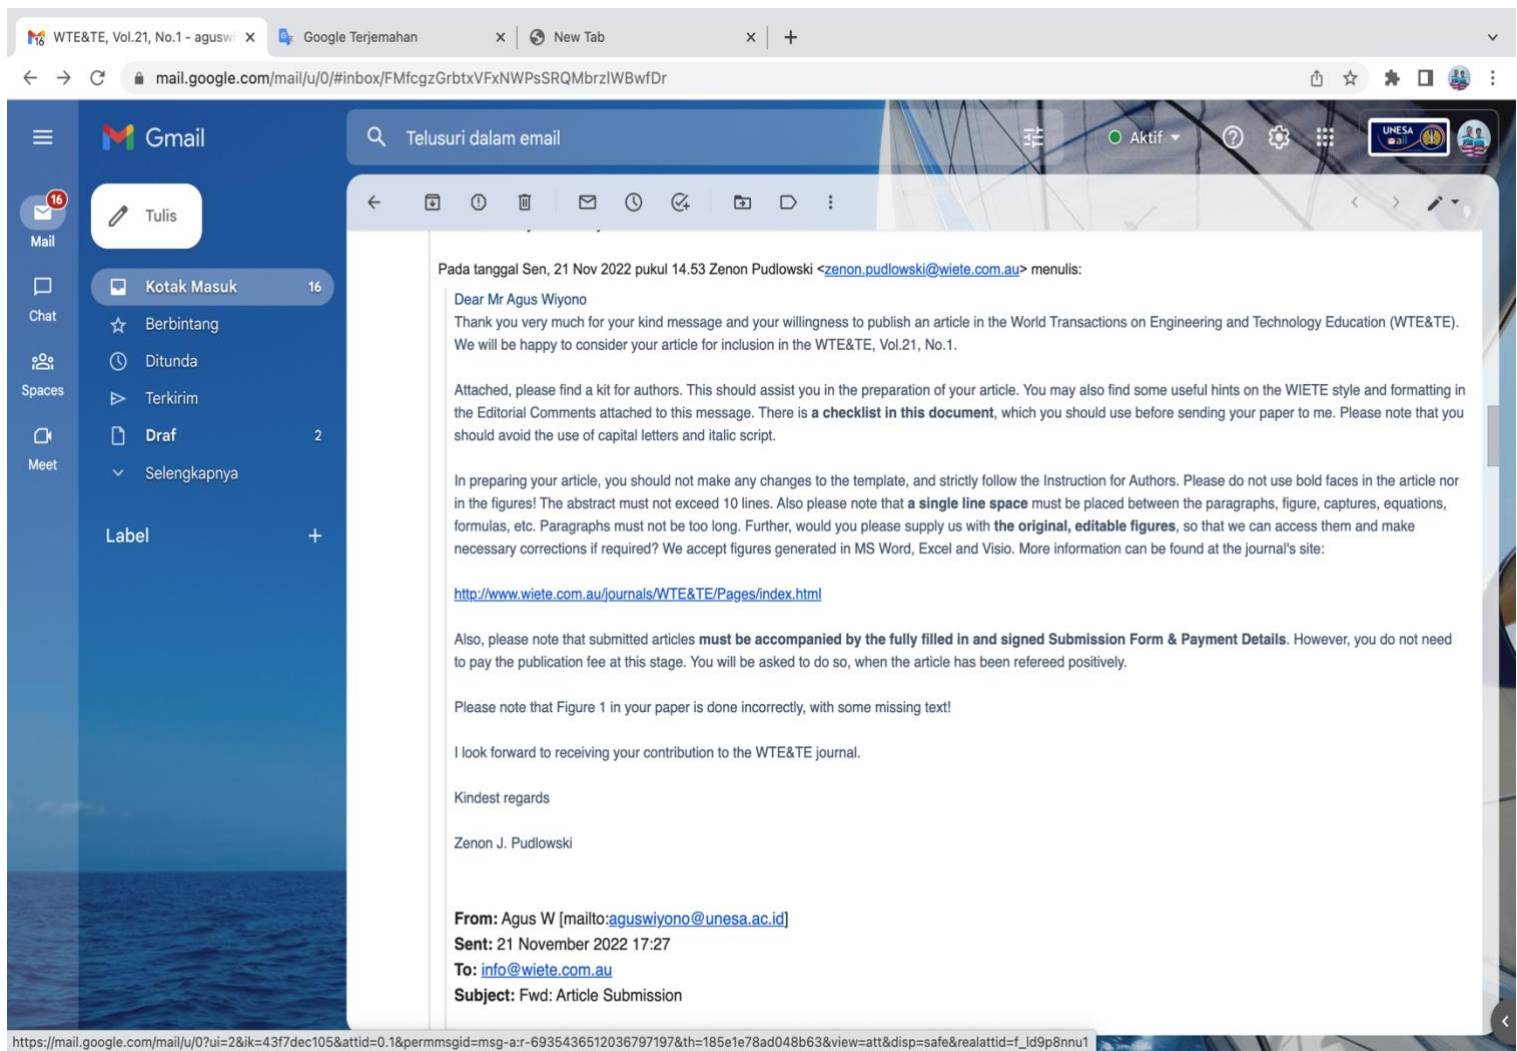

Yours sincerely,

Dr. Agus Wiyono  
State University of Surabaya.

hasil review pertama  
(21 Oktober 2022)**

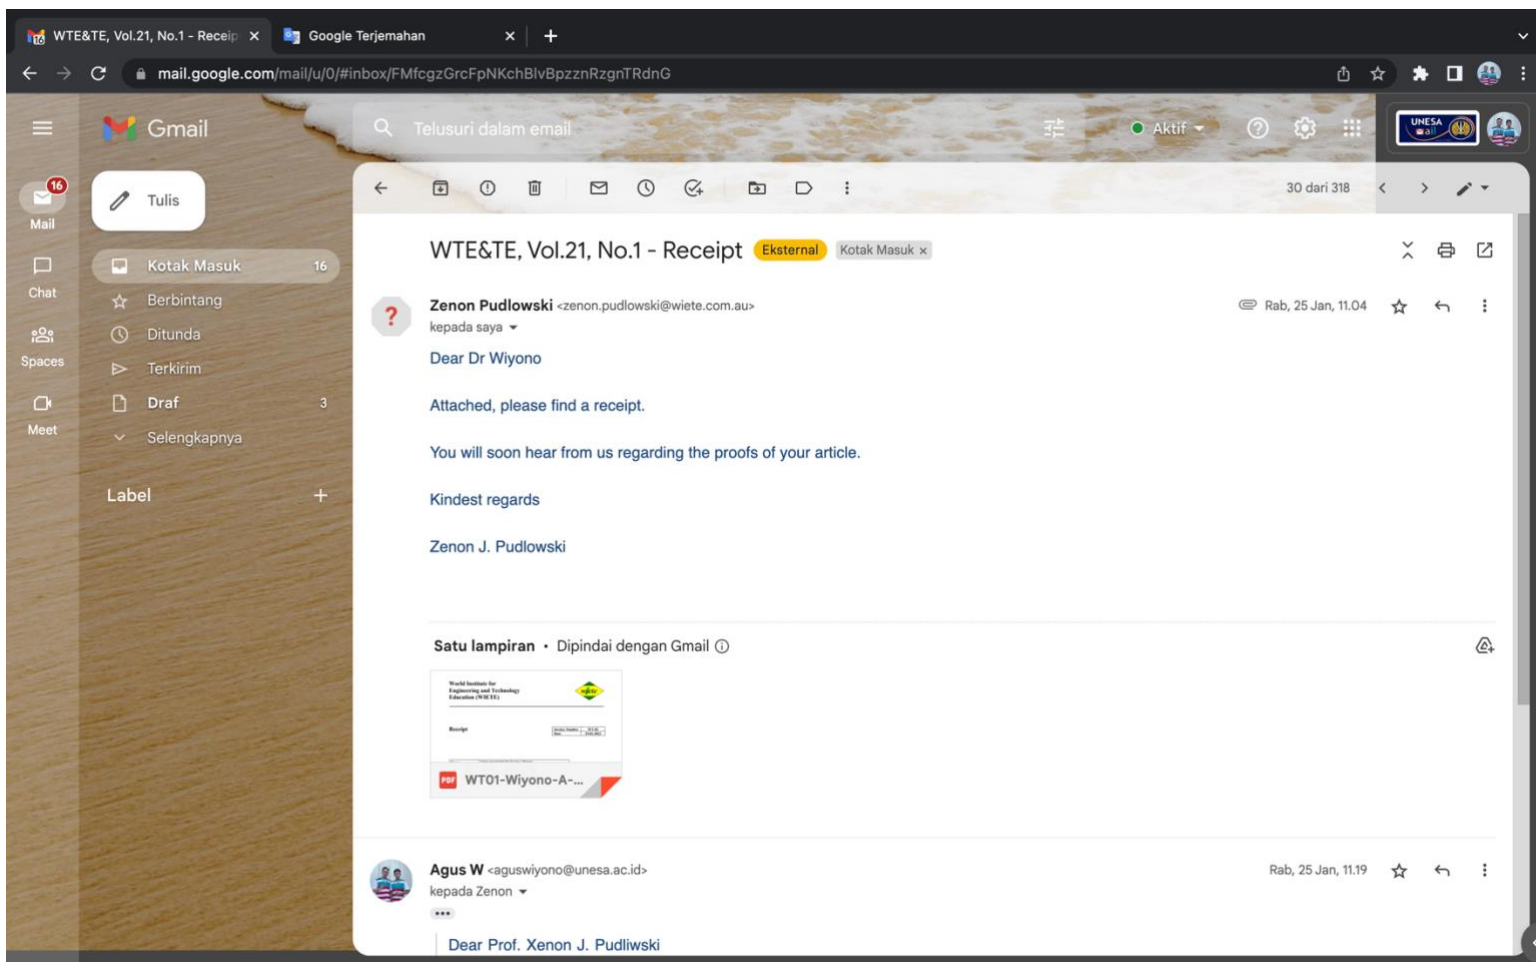

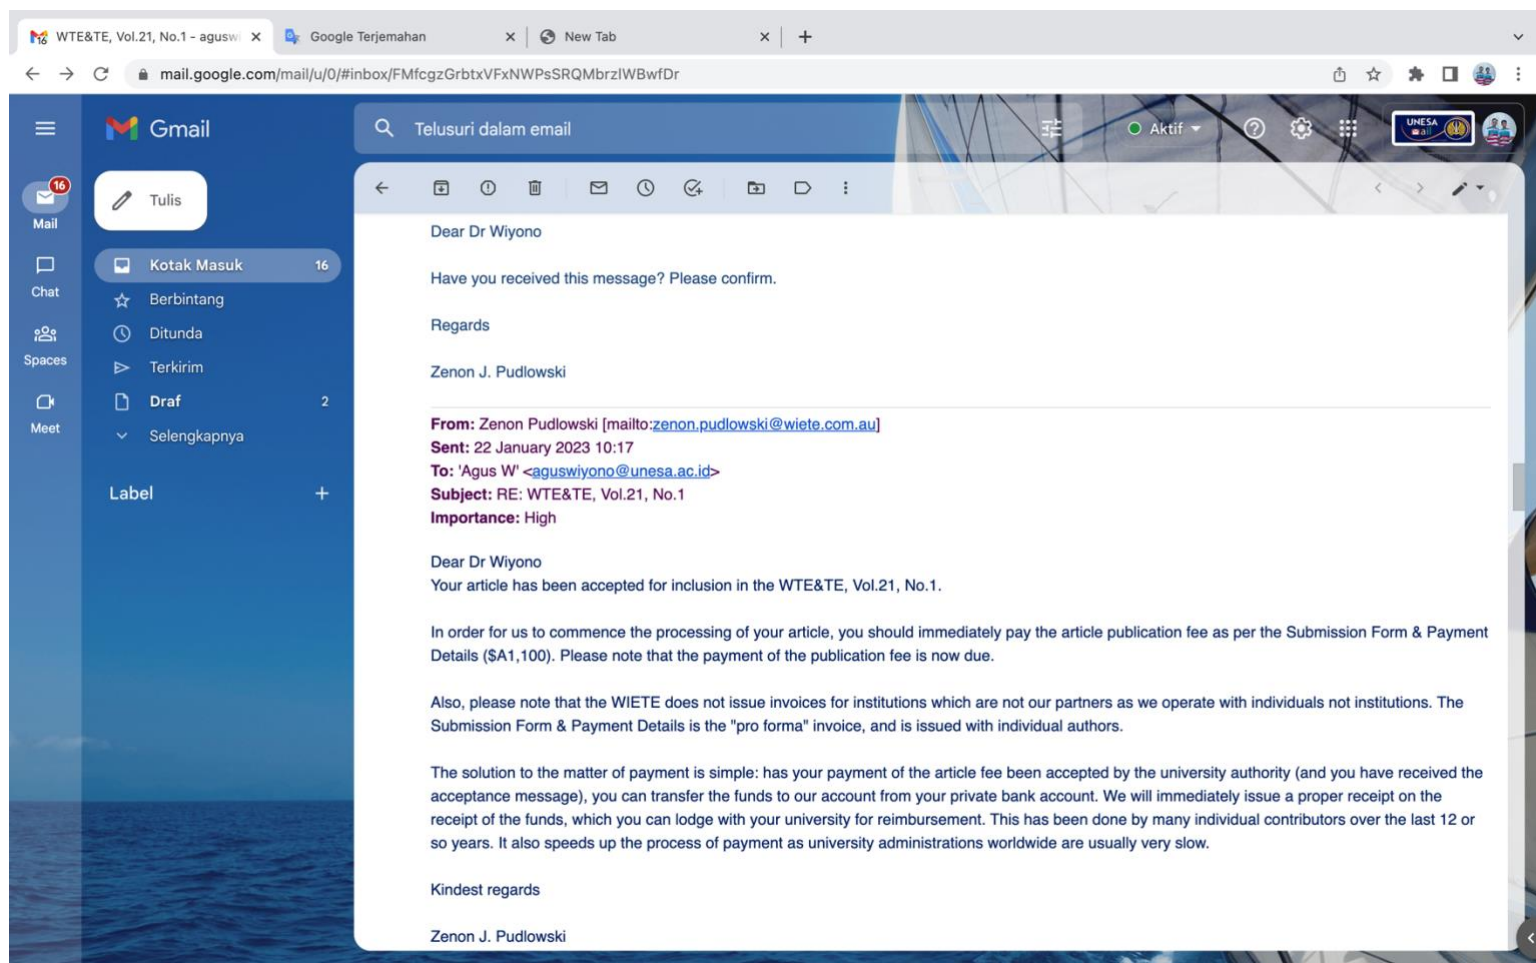

**3. Bukti konfirmasi submit revisi pertama,  
respon kepada reviewer, dan artikel yang  
diresubmit (4 Januari 2023)**

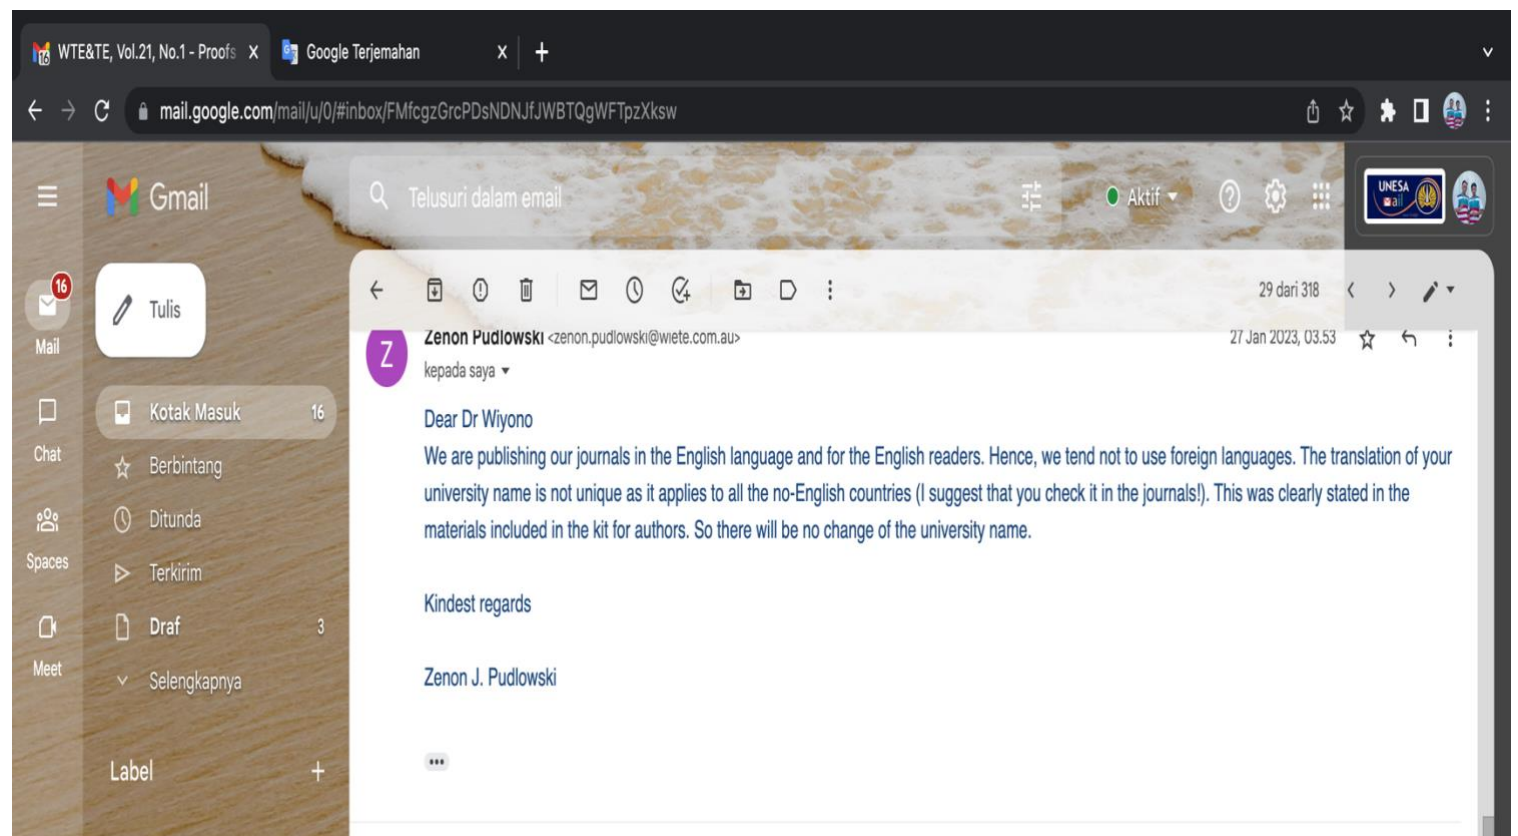

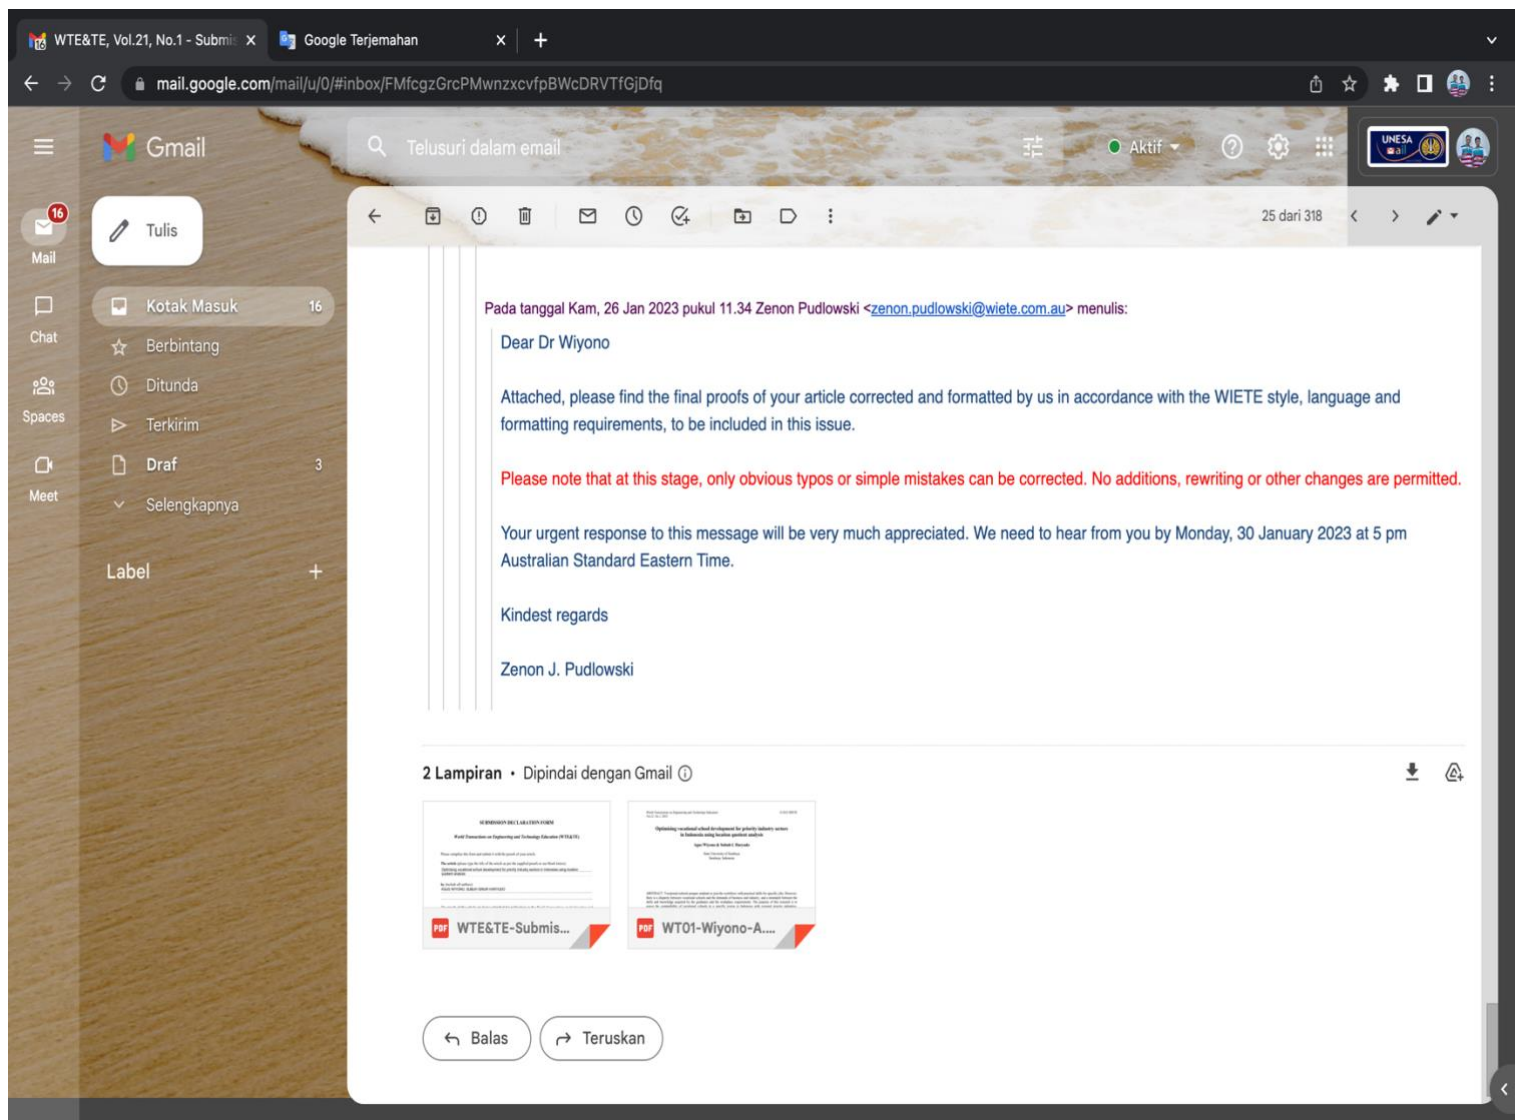

#### **4. Bukti konfirmasi review dan hasil review kedua (22 - 25 Januari 2023)**

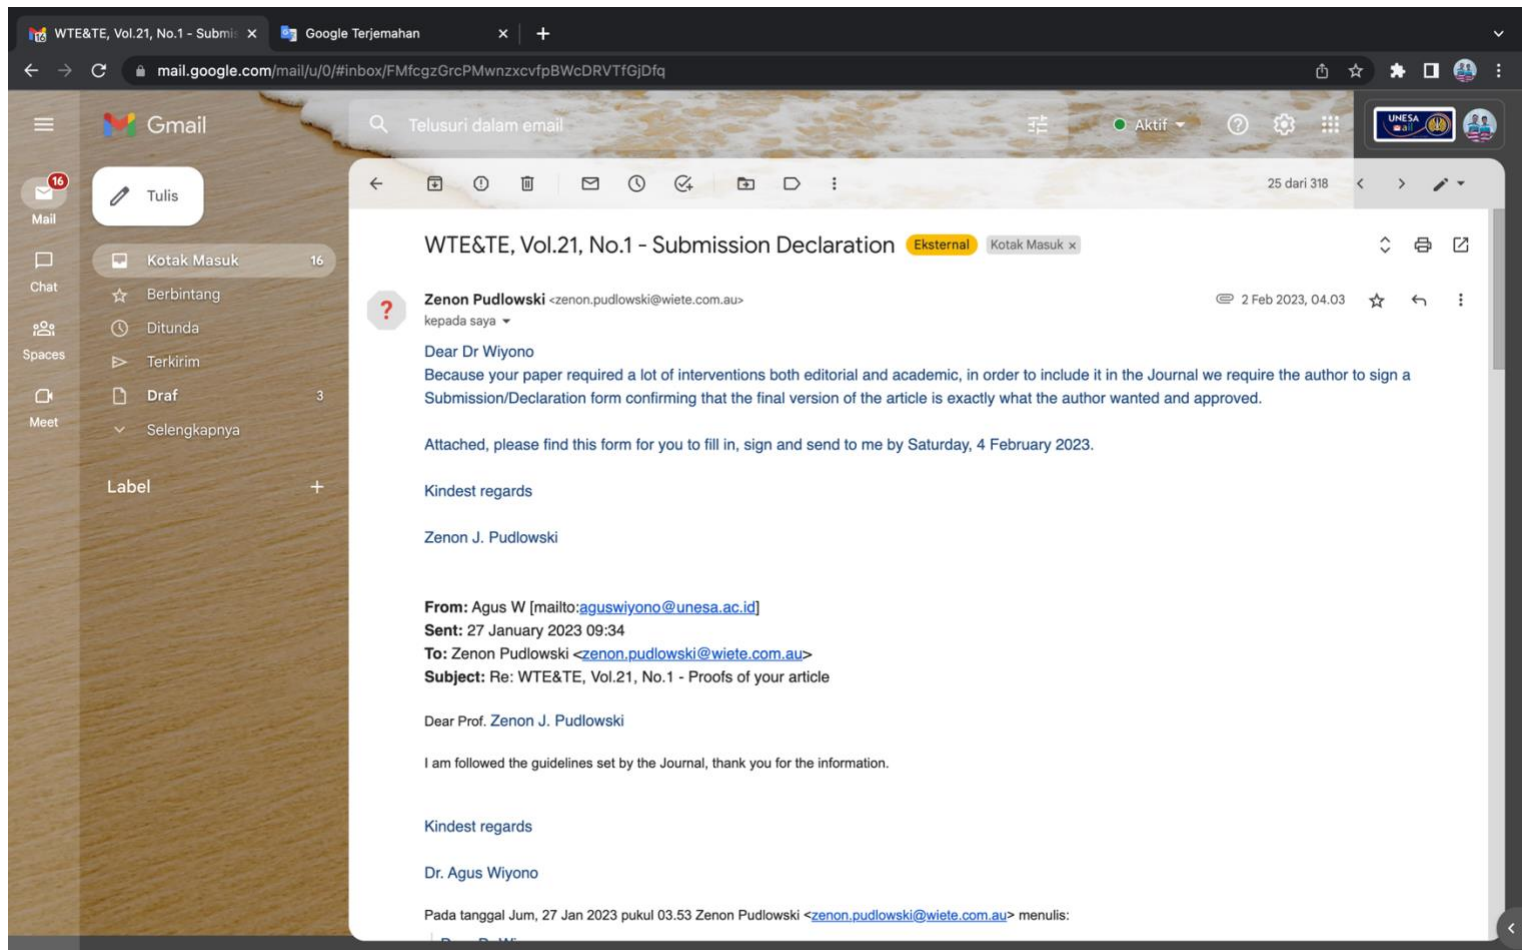

**6. Bukti konfirmasi submit revisi kedua,  
respon kepada reviewer, dan artikel yang  
diresubmit (26 – 27 Januari 2023)**

**6. Bukti konfirmasi artikel accepted  
(2 Pebruari 2023)**

## SUBMISSION DECLARATION FORM

### *World Transactions on Engineering and Technology Education (WTE&TE)*

Please complete this form and submit it with the proofs of your article.

**The article** (please type the title of the article as per the supplied proofs or use block letters):

Optimising vocational school development for priority industry sectors in Indonesia using location quotient analysis

**by** (include all authors):

AGUS WIYONO, SUBUH ISNUR HARYUDO

The proofs of this article are being submitted for publication in the *World Transactions on Engineering and Technology Education* by (give full name, title, affiliation, postal and e-mail addresses):

Agus Wiyono, State University of Surabaya, Unesa Kampus Ketintang Surabaya, 60231 - Indonesia, aguswiyono@unesa.ac.id

**Author or main author of the article on behalf of all co-authors:**

Since the processing of the article for publication in the *World Transactions on Engineering and Technology Education* (WTE&TE) required substantial editorial changes, such as the comprehensive revision of the text, that is English grammar, syntax, expressions, terminology, etc; redrawing or generating the figures, pictures, tables, diagrams, etc; formatting and layout of the article; and other changes carried out to satisfy the journal's stylistic requirements, I, the undersigned, hereby agree with the editorial changes undertaken by the publisher, and declare that they fully satisfy the author(s) and that the author(s) accept, without any reservation what-so-ever, full responsibility for the content and presentation of the article, which rests upon the author(s) and not the publisher.

I represent and warrant that I am authorised to execute this arrangement on behalf of all the authors of the article referred to above.

**7. Bukti konfirmasi artikel publish online  
(19 Pebruari 2023)**
