1. Overall, this article is good for publication
2. the number of pages of paper need to be reduced into six pages.
3. The English needs to be carefully revised. Many sentences are too long, needs to be shortened
- 4 the term of naming types of teacher:
5. Before stating this purpose, add a paragraph indicating review more literature about findings from previous studies related to teachers' creativity in problem solving, what contribution this study will may help designers in teacher profesional development in mathematics, the extent to which previous researchers discuss about teachers; creativity, and what they have not discussed much. This will help authors to know at where position this research compared to previous one.
6. Add some mathematical symbols or mathematical discussions to make this article fit with the focus of discussion expected in IOP publication
7. More detail comments are given in the attached file
