### **Minor Weaknesses and Suggestions**

1. Please check the bibliography (books, articles, and the publication, including the correct authors!). All references should be according to APA referencing style.
2. Researches are meant for contribution. Please add a paragraph after conclusion, which details theoretical and contextual contribution of this research. How is it significant to the existing knowledge and how it play its role in context.
3. Make sure your study objectives are mentioned in bullet form to assist readers.
